

“A Well Thought-Out English Paper”
by: Kyle “The Yellow Dart” Smith

Since maybe like the Middle Ages, there have been many differing opinions about hustle and bustle. This cannot be denied. It is my intention to sit down and play video games for several hours.

First, moving around quickly, and with purpose, is a true sign of character. Secondly, bustle(e.g. hustle) yields more product for the working types. “Hustle and bustle are like my right and left arms,” said Li'l Spicy in his famous “Hustle and Bustle Are Like My Right and Left Arms” speech. Webster's defines bustle as “excited and often noisy activity; a stir.” A stir, indeed. Finally, sometimes gross stuff can be funny.

In conclusion, I, “The Yellow Dart,” think I have done a great job illustrating the many differing opinions about hustle and bustle, may they both rest in peace. Also, I think Strong Bad should decrease The Cheat's allowance.
